PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with 2+ years of experience building modern, responsive web and mobile applications. Skilled in React, TypeScript, and Next.js with a passion for clean code, intuitive UI/UX, and delivering real value. Experienced across AI/ML platforms, e-commerce, project management, and hospitality industries.

WORK EXPERIENCE

Software Engineer | Frontend Developer | Pharaon Group (Ultrawares)

Jul 2025 – Present · Free zone, Syria · Fulltime

- Developing and maintaining modern web frontends with React and TypeScript
- Implementing responsive UI/UX components with focus on performance and accessibility
- Integrating REST APIs and managing state with Redux for scalable architecture
- Collaborating with backend team to deliver seamless features and optimize data flow

Software Engineer | Frontend Developer | Soutify

Jan 2025 – Jul 2025 · Remotely, KSA · Fulltime

- Built web frontend for multilingual sentiment classification platform powered by LLM models
- Developed multi-role data labeling platform with task switching and role management
- Built mobile version using Flutter with dynamic form rendering and real-time updates
- Implemented analytics dashboard for visualizing social data from X (Twitter)
- Contributed to Waste Management ERP system frontend using ABP Framework

Software Engineer | Frontend Developer | Freelancer

May 2024 – Present · Remote · Freelance

- Developing custom web and mobile applications for various international clients
- Delivering responsive, user-centered interfaces with modern design principles
- Implementing state management solutions and REST API integrations

PROJECTS

Askonnect – B2B Business Platform — Feb 2026 – Present

<https://askonnect.co/>

Closed, members-only B2B platform for ASKON members with real-time messaging via WebSocket, order lifecycle tracking, ASKON trade guarantee, shipping integration, and association oversight panel.

Texpo – Online Technology Exhibition CMS — Mar 31, 2026 – Apr 9, 2026

texpo.ultrawares.com/en

CMS built with Node.js for an online technology exhibition in Damascus. Manages booth bookings, exhibitor registrations, bilingual (AR/EN) content, and exhibition catalog via admin panel.

Electronic Wedding Invitation — Apr 2026

nazemms1.github.io/wedding/

Elegant wedding invitation web app with personalized bride & groom designs, Framer Motion animations, venue details, and fully responsive layout.

WorksiteTools – E-Commerce Management Dashboard — 2025 – Apr 2026

dashboard.worksitetool.sy

Enterprise e-commerce admin dashboard with full bilingual support (EN/AR). Manages products, inventory, orders, distributors, multi-currency, and multi-role access for admins and distributors.

Pyramind – Project Management Platform — Jul 2025 – Apr 2026

pyramind.pharaon-group.com

Enterprise project management platform at Pharaon Group supporting agile teams with sprint planning, backlog management, real-time dashboards, and cross-functional collaboration.

Bisher AlHasani – Personal Portfolio Website — 2026

bisher01.github.io/bisher_po_portfolio/

Professional portfolio for a Product Owner & Flutter Developer featuring modern dark theme, Framer Motion animations, and responsive layout.

Askon Syria – Bilingual Company Landing Page — Jan 2026 – Feb 2026

askon-syria.com/en

Professional Next.js landing page with seamless Arabic/English switching, RTL support, static generation, and SEO-friendly structure for a Syrian company.

LUP – Multilingual Sentiment Analysis Platform — Jan 2025 – Jul 2025

app.lup.sa

AI-powered platform for real-time social media sentiment analysis using transformer and LLM models, with interactive analytics dashboard and batch processing for Arabic and English text.

Multi-Role Data Labeling Platform — Jan 2025 – Jul 2025

label.lup.sa

Data annotation platform for ML/AI training with multi-role access (Admin, Supervisor, Labeler), real-time collaboration, quality assurance workflows, and productivity analytics.

E-Ticketing System — Feb 2025 – May 2025

tickets.c-m.com.sa

Digital ticketing platform with multi-role dashboards, QR code generation/scanning, bulk guest CSV import, drag-and-drop email designer, and full Arabic/English RTL support.

Baflay Burger – Restaurant Website & Management System — Nov 2024 – Mar 2025

baflayburger.com

Restaurant website and admin dashboard for a popular Damascus burger chain (34K+ followers). Includes online ordering, menu management, multi-location support, and promotions.

Mobile Applications (Flutter)

- Ketabook – Online bookstore with Stripe payments, in-app reading, and social features (May 2024 – Sep 2024)
- MTX Scanner – Event ticket scanner app with QR validation (Mar 2025 – Apr 2025)
- ChatPDF – AI-powered PDF assistant with OCR, quiz generation, and audio-to-text (Oct 2023 – Feb 2024)
- Social Aid App (Gaith) – Charitable donation platform with payment gateways (Oct 2022 – Feb 2023)
- E-Commerce App – Shopping app with cart, wishlist, payments, and recommendations (Jun 2022 – Sep 2022)

RECOMMENDATIONS

Judy Alqabbani — Project Manager at Pharaon Group · Jul 2025 – Present

linkedin.com/in/judy-alqabbani-2bb5b81b4

"During our collaboration on the Pyramid project, I had the pleasure of overseeing Nazem Almsouti, and I can state with confidence that he is a superb frontend engineer. He is quick, very talented, and very proactive. He takes the initiative without waiting for guidance and never lets obstacles stand in the way of advancement. Rather than claiming that something is challenging, he always finds a solution. He doesn't need micromanagement, is adaptable, and is a pleasure to work with. He is quick to grasp requirements, meticulous, and regularly completes excellent work on schedule. His dedication, work ethic, and sense of ownership are genuinely remarkable. He would be a great asset to any team."

Bisher Al Hasani — Product Owner & Flutter Developer · Pharaon Group

"I collaborated with Nazem Almsouti for two years, and during that time, he consistently demonstrated strong technical skills as a frontend and Flutter developer. Nazem is detail-oriented, proactive, and reliable. He takes initiative, communicates clearly, and works effectively within a team to deliver high-quality results on time. His commitment and professionalism make him someone you can always count on. He would be an excellent addition to any development team."
